2012 Proposals #2

Rule that was passed:

Default starting lineups and backups.

1. Players with the most starts the previous week.
2. If starting lineup or backups have not been filled after going through top roster, use top scoring players from developmental.
3. If #1 or #2 results in a tie, use alphabetical order as a tie-breaker. If it is the 1st week of the season, use the previous year.

>> Add: Mark replacement player as an off week replacement if an off week player could have been an option to start. If off week replacement isn't possible, mark replacement player as an IR replacement to the starter that didn't play and put the starter on IR.
